

Reef Evolution Sea Salt

PARAMETERS

DOSE

38g/l H₂O

SALINITY

33ppt

CALCIUM

430 - 450 mg/l

MAGNESIUM

1300 - 1350 mg/l

KH

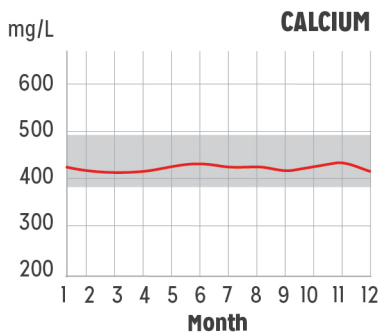

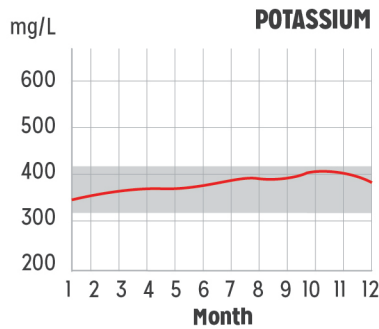

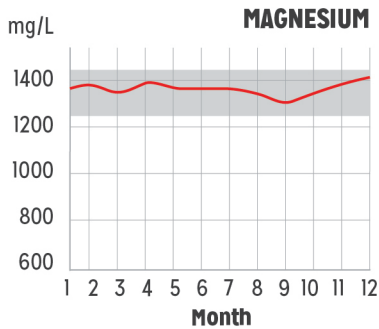

7,8 - 8,5 °dKH

Reef Evolution Salt has been formulated to meet the needs of reef aquariums. **With a medium fish population, it provides a regular supply of trace elements, calcium, magnesium, and alkalinity.**

It contains food for beneficial bacteria, amino acids, and vitamins that support your aquarium's biological processes for optimal coral growth and coloration, as well as the health of your fish.

Reef Evolution Salt can be used permanently or for setting up a new tank.

Calcium	450,0mg/L
Magnesium	1300,0mg/L
Potassium	400,0mg/L
KH	8,5d°KH
Hydrogen carbonates	127mg/L
Strontium	7400µg/L
Aluminum	50µg/L
Arsenic	< 2µg/L
Cadmium	0,38µg/L
Chromium	5,0µg/L
Copper	< 4µg/L
Tin	< 4µg/L
Iron	230,0µg/L
Manganese	56,0µg/L
Mercury	< 1µg/L
Nickel	< 4µg/L
Lead	6,2µg/L
Zinc	< 0,2mg/L
Bromides	62,67mg/L
Fluorides	< 5mg/L
Iodides	< 10mg/L
Chlorides	17900mg/L
Sodium	10000,0mg/L
Sulfates	2440mg/L
Antimony	< 4µg/L
Boron	8500µg/L
Barium	540µg/L
Cobalt	< 4µg/L
Lithium	25,0µg/L
Molybdenum	160,0µg/L
Selenium	< 4µg/L
Vanadium	< 4µg/L

1 **2**

1. Natural sea water range.
2. Composition of Reef Evolution (at a specific gravity of 1.024) over one year of manufacturing.

1. Composition de l'eau de mer naturelle.
2. Evolution des paramètres de Reef Evolution (densité 1.024) au cours des fabrications d'une année.

BENEFITS

Helps many reef organisms form necessary shells or skeletal structures. May eliminate the need for separate calcium supplements.

Ensures prolonged availability of important elements to promote coralline algae growth. May eliminate the need for additional trace element supplements.

Provides specific vitamin nutrients that are essential for the optimal growth of invertebrates, corals, and anemones.

Ideal nutrient source for corals, whether LPS or SPS, significantly improving their coloration and polyp deployment.

Carbon is crucial for coral photosynthesis and bacterial growth, improving filtration and nutrient balance.

Neutralizes excess heavy metals, such as copper, which are often found at high levels in domestic water systems.

Provides a clear solution in minutes. Allows immediate use. Quickly reaches and maintains the proper pH.

Ensures consistency throughout the process.

Easy to use. Each batch is analyzed to ensure the presence of essential elements. A solution for every need. Eco-friendly packaging made from recycled and recyclable materials.

REMARKABLE FEATURES

SUPPLEMENTAL CALCIUM

ADDITIONAL TRACE ELEMENTS

SUPPLEMENTAL VITAMINS

10 AMINO ACIDS

CARBON AND MARINE BALANCE

METAL DETOXIFIER

EXCEPTIONAL SOLUBILITY

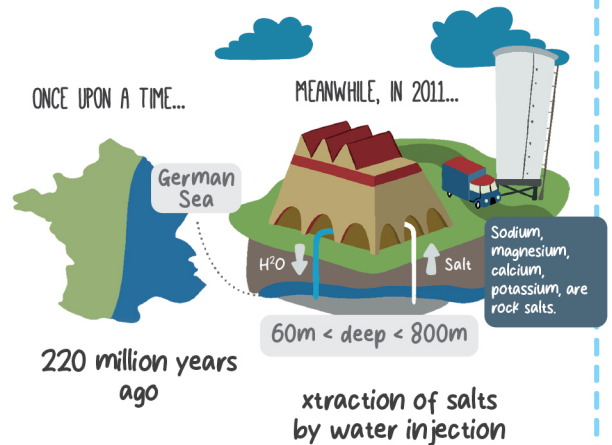

UNIFORM PARTICLE SIZE

CONVENIENT ONE-PIECE SHAPE AND PACKAGING

Aquarium Systems France
The preferred choice of aquarists for over 60 years

HOW DOES IT WORK?

1 Focus on a short circuit

2 An HQE factory

MADE FROM LOW-IMPACT MATERIALS

ENERGY MANAGEMENT

WATER RECYCLING

3 Quality packaging

NEW DESIGN

RECYCLED AND RECYCLABLE
